DETAILED ACTION

1. In view of the appeal brief filed on Jan. 28, 2008, PROSECUTION IS HEREBY REOPENED. A new ground of rejection is set forth below.

To avoid abandonment of the application, appellant must exercise one of the following two options:

(1) file a reply under 37 CFR 1.111 (if this Office action is non-final) or a reply under 37 CFR 1.113 (if this Office action is final); or,

(2) initiate a new appeal by filing a notice of appeal under 37 CFR 41.31 followed by an appeal brief under 37 CFR 41.37. The previously paid notice of appeal fee and appeal brief fee can be applied to the new appeal. If, however, the appeal fees set forth in 37 CFR 41.20 have been increased since they were previously paid, then appellant must pay the difference between the increased fees and the amount previously paid.

A Supervisory Patent Examiner (SPE) has approved of reopening prosecution by signing below:

/Patricia L Engle/

Supervisory Patent Examiner, Art Unit 3673.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 24, 26, and 27 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 24 recites the limitation "a sheet metal layer" in lines 7 and 13. There is insufficient antecedent basis for this limitation in the claim.

Claims 26 and 27 are rejected for depending upon a rejected claim.

Allowable Subject Matter

3. Claims 24, 26 and 27 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

4. The following is an examiner's statement of reasons for allowance: the closest prior art of record,

The following is an examiner's statement of reasons for allowance: The closest prior art, Miyaoh (US Patent No. 5,961,126), fails to disclose a cylinder head gasket having a metal layer that has combustion chamber openings, each of which has at least one first bead associated therewith and being surrounded by said at least one first bead formed in said metal layer and at least one delimiting device being associated with each of said first beads and being obtained by deformation of said sheet metal layer and there is no motivation, absent the applicant's own disclosure, to modify the Miyaoh reference in the manner required by the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

5. Applicant's arguments with respect to claims 24, 26, and 27 have been considered but are moot in view of the new ground(s) of rejection.
